

About STARS

Standing Together Associates Reach Success (STARS) is a voluntary giving program created by GMC employees to fund projects that benefit our patients, their families and our community. Donations are made through payroll deduction and can be modified at any point in time.

Through the years, our own associates have provided more than \$3 million in critical funding for programs and services that enhance patient care and help others in time of need. Our STARS program is a true testament to the generosity of our associates and shows that we're not just making a living, we're making a difference!

Benevolence Fund

The Benevolent Fund was created to help our fellow associates in times of need. Twenty percent of every dollar you give will be earmarked for this designated fund.

GMC Foundation

In 1990, the Gwinnett Medical Center Foundation was formed. For the past 20 years we have been inspired, blessed and empowered by philanthropy. We've experienced firsthand what our community can do when we simply ask and enable people to give.

The Foundation supports Gwinnett Medical Center by funding programs, services and capital expansion projects through charitable contributions. As a private not-for profit 501(c)(3), the Foundation enables people from all walks of life to come together and give of their time, talents and treasure to strengthen our healthcare system. It all comes down to caring people caring for people.
